

Dear Agency Partner,

Qantas Gateway is now live, providing one secure login for Qantas Agency Connect and, over time, all Qantas agency sites*, making it easier to access the services and support you use every day.

What's changing?

Qantas Gateway will replace the current Qantas Agency Connect login process, introducing individual credentials for enhanced security, single sign-on for all agency sites, and improved admin features for managing user access.

Qantas Agency Connect is the first site available through Qantas Gateway, with other agency sites transitioning in stages.

How to register

Agency Administrators should now complete registration in Qantas Gateway. The guide below outlines the registration process once the Administrator has registered.

1

Register primary agency

2

Registration confirmed to proceed

3

Register additional IATA, TIDS or ARCs

4

Add team members (via bulk upload, or members can request access)

Need help?

For further guidance and FAQ's, visit the Gateway Help & Support page on the Qantas Agency Connect site [here](#).

Kind regards,

Qantas Agency Partnerships
Qantas Airways Limited
