

We would like to inform you that, starting from **June 4, 2026**, certain Fare Brands (available as public fares) that are currently offered exclusively through ITA Airways' NDC channel will also be made available on the **EDIFACT channel** (with DCC applied).

In particular, the following **ECO LIGHT Fare Brands** will be reintroduced:

- **CONT:** for destinations within Continental Europe, excluding routes to and from Germany, Switzerland, Belgium, and Austria.
- **Argentina:** for routes originating in Argentina.

This initiative, which **will be implemented on a temporary basis**, reflects ITA Airways' commitment to further supporting travel agencies that have not yet completed the process of joining the ITA Airways NDC channel. During the current peak travel season, it will enable them to continue offering their customers a broad and competitive range of fares that meets market demands.

Should you require any further information or assistance with the NDC onboarding process, your commercial representative remains available to support you.

Thank you for your cooperation and for your continued commitment to promoting ITA Airways products.
