

We would like to inform you about some important updates that we will be implementing as of July 1, 2026:

**1. Update of the Distribution Cost Recovery Surcharge for GDS EDIFACT (EDIFACT-DCRS)**

The Distribution Cost Recovery Surcharge (EDIFACT-DCRS) is a fee designed to recover the cost incurred by LATAM Group when travel agencies use GDS EDIFACT technology to book tickets.

Starting on July 1st, 2026, the EDIFACT-DCRS amounts will be updated to reflect LATAM's actual distribution costs.

The terms and conditions of the EDIFACT-DCRS for tickets issued through the GDS channel via EDIFACT will be adjusted as follows:

GDS	EDIFACT-DCRS amount per coupon
Sabre	USD 14,47 for all points of sale

\*For a complete list of countries considered in each group, please visit [LATAM Trade](#)

## 2. Update of the Distribution Cost Recovery Surcharge for GDS NDC (NDC-DCRS)

Similar to the distribution cost recovery fee applied to GDS EDIFACT issued tickets (EDIFACT-DCRS), the distribution cost recovery fee for NDC issued tickets (NDC-DCRS) made through Sabre will be updated as follows:

GDS	NDC-DCRS amount per coupon
Sabre	USD 0,00 for all coupons issued using the “Basic” fare brand USD 4,08 for all coupons issued using any other fare brand

The EDIFACT-DCRS and the NDC-DCRS will be 100% refundable as long as the fare allows it and the cancellation is made before the flight date.

We would like to remind you that tickets issued through the direct NDC by LATAM connection options (API, NDC Portal) and through certified Aggregators are not subject to any NDC-DCRS charges.

We appreciate your collaboration and trust in **NDC by LATAM**. We are committed to continuing to work together to offer you an exceptional experience. For more information, feel free to contact your sales executive or visit:
