TOP PICKS OF THE MONTH

TECH FORWARD WITH VIVEK OBEROI

Actor and entrepreneur Vivek Oberoi shares how technology shapes every part of his life -- from wearables and smart spaces to AI models that fuel his creative process. He reveals how tech enhances performance, sharpens intuition, and reimagines the way we live, work, and travel.

FUTURE-READY TRAVEL GEAR

From kinetic-energy luggage scales to power-packed multi-device chargers and AI powered walking shoes, this month's gadget list elevates the way we move. Discover simple yet smart tools that make trips smoother, more connected, and effortlessly organised.

BUKHARA'S LIVING HERITAGE

Explore Bukhara, a Silk Route city where centuries old craft traditions thrive in everyday life. Wander through vibrant bazaars, meet artisans shaping pottery, textiles, and copperware, and experience a cultural rhythm where history breathes in every street and courtyard.

PLAN YOUR TRIPS WITH AI

Travel planning is changing fast -- AI now curates itineraries in seconds, predicts fares, and guides you on the go. But with convenience comes caution. This story explores the balance between smart automation and mindful travel, and how to use AI without losing the joy of discovery.

This July, discover stories shaped by innovation, culture, and the future of travel.
