

Qatar Airways' 150 Starlink-Equipped Widebody Aircraft Now Include World's First Starlink-Equipped Boeing 787-9

Dear Partner,

Qatar Airways, the operator of the world's first and largest Starlink-equipped widebody fleet, has become the **first airline globally to operate Starlink-equipped Boeing 787-9 aircraft**. The airline has also completed the Starlink rollout across its Boeing 787-8 sub-fleet in just seven months, bringing the total number of Starlink-equipped widebody aircraft to 150.

Building on the successful rollout across its Boeing 777 and Airbus A350 fleets, Qatar Airways now operates the world's first and largest Starlink-equipped Boeing 777, Airbus A350 and Boeing 787 fleets, with the remaining Boeing 787 aircraft scheduled for completion by the end of 2026.

Your clients can enjoy complimentary ultra-fast Starlink Wi-Fi, enabling seamless browsing, streaming and connectivity throughout their journey on an increasing number of Qatar Airways flights.
